Check Favorites
Version 1.6
"The best little Favorites utility around!"

- *Multiple links can be checked at the same time*

- *Favorites can be exported in a variety of formats including the standard "Bookmark" format*

- *Integrated Browser allows quick and easy browsing of Favorites, and can block annoying pop-up windows*

- *Built-in Protocol Handler allows links to be ripped and checked from existing pages on the Internet*

- *All bad/broken links can be deleted in a single action*

- *Customizable timeouts allow for slow sites to be checked correctly*

JRTwine Software's *Check Favorites* is an application that is designed to help users maintain their list of Internet Explorer® Favorites. It also contains additional features that can help web page authors check the validity of links on their web sites.

Multiple Browser Support
Check Favorites can read Favorites/Bookmarks from Internet Explorer, Netscape and Opera.

Multi-threaded Design
Check Favorites can check up to 32 links simultaneously.

Integrated Internet Browser
An internal browser allows users to manually check links that require additional authentication information. The Internal Browser can optionally block pop-up windows.

Export Features
Users are able to export their list of Favorites in a variety of formats.

The `checkfavs` Protocol Handler
By use of a built-in Internet Explorer Protocol Handler, users can easily check just about any accessible page by using familiar URL syntax within Internet Explorer.

Full-Featured Installer
Complete install/uninstall support.

Complete Online Help
A complete HTML help file is included, including support for context-sensitive help.

Supported Operating Systems
English versions of Windows 98, Windows ME, Windows NT 4.0, Windows 2000, and Windows XP.

System Requirements
32MB RAM, P-II or higher CPU, 1MB free disk space.

Free Upgrade
Existing *Check Favorites* users can upgrade to version 1.4 for free!

Low Cost
Check Favorites is available for only $20(USD) for a single user license. Quantity and site licenses are available.

* Some features are only available in the Registered Version of Check Favorites.
